\*Students who are collision and violation free for 12 months are eligible for Level 3 license. .

## Michigan Graduated Driver Licensing Levels

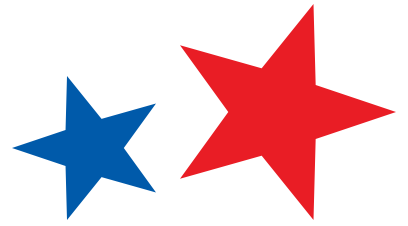

Driver Education in Michigan is segmented to ensure that students gain mastery of the road before obtaining their license. The Graduated Driver Licensing (GDL) system is designed to educate teens on driving, progressively granting them greater driving privileges as they progress through the stages of the program. **Licensing Levels:**

1. **Level 1 License** eligibility upon completed of Segment 1. The Level 1 Learner's license is the first of three licensing categories in the Graduated Driver Licensing (GDL) program. A Level 1 Learner's License allows you to practice driving with a licensed parent/legal guardian or designated adult who is at least 21 years old.
2. **Level 2 License** allows you to drive independently, without a parent/guardian or authorized adult, under certain restrictions.
3. **Level 3 License** is the last licensing category of GDL and expires when you turn 18. A Level 3 license allows you to drive independently without restrictions, just as you would with a full-privilege driver's license.

## Why All Star Driver Education?

- ★ Thoroughly trained team of expert instructors ensure safety and a comprehensive education.
- ★ Proprietary Curriculum prioritizes teaching strategies aimed at helping students make informed decisions and foster responsible behavior on the road.

- ★ Meticulously maintained training vehicles to ensure secure and effective learning, equipped with right-side break pedals, allow instructors full control during lessons.

# The Road to Freedom

## Step 1: Segment 1

Student become eligible at 14 years and 8 months old. This course consists of 24 hours of classroom instruction, 6 hours of behind-the-wheel training and 4 hours of in-vehicle observation and a final written exam. Review the [Michigan Graduated Driver Licensing Guide for Parents](#) for additional details.

## Step 2: Apply for Level 1 License

Upon completion of Segment 1 a Certificate of Completions is emailed to the student, enabling them to apply for a Level 1 License at the Secretary of State. View more information about the [New Driver Process](#) which includes a list of required documentation.

## Step 3: Supervised Practice Driving

After obtaining a Level 1 License, supervised practice driving can commence. Thirty hours (including 2 hours at night) of supervised practice driving must be completed with a parent/guardian or a designated adult with a valid license who is at least 21 years old. During the three-month period between Segment 1 and Segment 2, it is necessary to maintain a [Supervised Driving log](#).

## Step 4: Segment 2

Students are eligible for Segment 2 after holding a Level 1 License for three consecutive months and logging 30 hours (including 2 hours at night) of supervised practice driving. Segment 2 is a six hour program spanning three days, concluding with a final written exam.

## Step 5: Continue Supervised Practice Driving

From the issuance of the Level 1 License, a total of 50 hours (including 10 hours at night) of supervised practice driving must be completed and logged with a parent/guardian or a designated adult with a valid license who is at least 21 years old.

## Step 6: On-Road Driving Skills Test

An on-road driving skills test can be schedule once the student has held a Level 1 License for six months, successfully completed Segment 2, and logged a minimum of 50 hours of supervised practice driving, including at least 10 hours at night. The [Driving Skills Test Study Guide](#) is a valuable resource.

## Step 7: Apply for Level 2 Intermediate License

To be eligible for a Level 2 License, a student must: Be at least 16 years old, passed the on-road driving skills test, not been at-fault in a collision, received a citation or license sanction, or been convicted of a driving-related violation for at least 90 days before the on-road skills test.
